HOP AROMAS

Tropical/Fruit | Piney/Resinous | Stone Fruit

5KG PACK	TYPE	2022 PER KG
Crosby Hops [™] Idaho 7 [®]	CGX [™] CRYOGENIC LUPULIN PELLETS	€72.95

CGX pellets offer up to twice the potency of T-90 pellets, allow you to deliver big hop notes while gaining significant efficiencies that benefit your beer, your business, and the planet.

Dial in your desired hop profile by showcasing the aromas and flavours you want while maximising yield.

CGX can be used wherever T-90 hop pellets or whole cone hops are traditionally used in beer recipes to enhance your beer's hop profile and reduce trub loss :

- Late-Addition Kettle
- Whirlpool
- Fermentation
- Dry Hopping

CGX shines when used with T-90s and/or whole cone hops, giving your beer bright hop notes while maintaining good body and mouthfeel.

When developing new recipes, start by using CGX at a dosing rate of approximately 40-50% of the T-90 pellets you'd typically use.
